made 2 perform

uvex is performance.

made 2 perform is our pledge to design and manufacture products that deliver exceptional performance without compromising on safety, comfort, quality or sustainability. Products that perform – from the workplace through to the world of sports and leisure.
uvex stands for passion, motivation, and excellence. “made 2 perform” is a motivating force for our customers, athletes, uvex employees, and all those who aspire to the winner’s podium.

uvex ultimate DNAero MIPS

protecting people since 1926

Professional or recreational. Competition or fun. As one of the leading international manufacturers of protective products with headquarters in Fuerth, we at uvex inspire our customers every day with groundbreaking technologies and innovative products. 24/7 – since 1926. To achieve the best, whether in leisure, sports or work. To protect people.

sponsor of the UCI Pro Tour Team Cofidis

“As a German rider, I’m especially happy to work with uvex. The helmets give me a confident and secure feeling on every kilometer – and it’s great to be supported by such a well-established German brand.”

Emanuel Buchmann, GER
Team Cofidis

made in uvex – made 2 perform innovative. protection. sustainable.

First-rate engineering. Backed by years of expertise. Passionate about quality. “made in uvex” is more than a simple promise. It embodies our accumulated expertise in product design and innovation – since 1926. Our highly qualified team of design, development, and product management experts creates products with standard-setting performance, safety and durability. Our product development is based on extensive laboratory tests, toxic substance controls, computer simulation, and actual field tests with professional athletes. During the manufacturing phase, premium workmanship and environmental responsibility go hand in hand. “made in uvex” is our quality pledge. And our benchmark for outstanding performance coupled with ultimate protection.

Winning innovation
Cutting-edge development. Longstanding product expertise. Maximum safety. The uvex name has been synonymous with innovative products for 100 years. We surpass industry standards. We perfect and finetune our sports equipment through rigorous lab tests and field tests, and by using pioneering computer simulation.

Winning performance
Multiple test winners. Full confidence. Absolute dependability. Developed by expert engineers, tested by professional athletes. Our helmets, eyewear, and protective equipment meet the highest standards in safety and reliability. “made in uvex” quality – outstanding performance for every application.

Winning design
Perfected functionality. Top performance. Stylish looks. In our HQ at Fuerth, the design team sets new standards. Our helmets and eyewear are not only highly protective and highly durable – they are also trendsetting, statement pieces. Product design that’s visually and technically outstanding.

Winning sustainability
Responsible, innovative and future-driven technologies. Sustainable raw materials and minimal CO_2 emissions. Maximum commitment – to the planet and to our employees. That’s the essence of our Protecting Planet strategy. Our goal: climate neutrality by 2045. A bold ambition in the plastics industry. But we thrive on challenges. They push us further. And the results speak for themselves: For our consistent commitment to circular economy principles and the smart use of resource-efficient materials, the uvex group has been awarded with the German Sustainability Award 2026 in the Plastics & Rubber Industry category.

WINNER
German Sustainability Award Companies 2026

100 YEARS uvex

uvex ultimate line

100 years of excellence. 100 years of innovation. ultimate performance.

uvex ultimate line is the culmination of one hundred years of expertise and the tireless pursuit of perfection in safety and performance. Developed in collaboration with athletes, built to meet the highest standards.

ultimate performance – made for you.

uvex ultimate DNAero MIPS
Aerodynamics. Innovation. Cooling.
The uvex ultimate DNAero MIPS reduces air resistance thanks to its CFD optimized shape and Flowskin technology. The BOA® Fit System provides millimeter precise adjustability, while the CCubed® interior actively cools and wicks away sweat. More performance, more comfort, more safety.

Mips AIR NODE

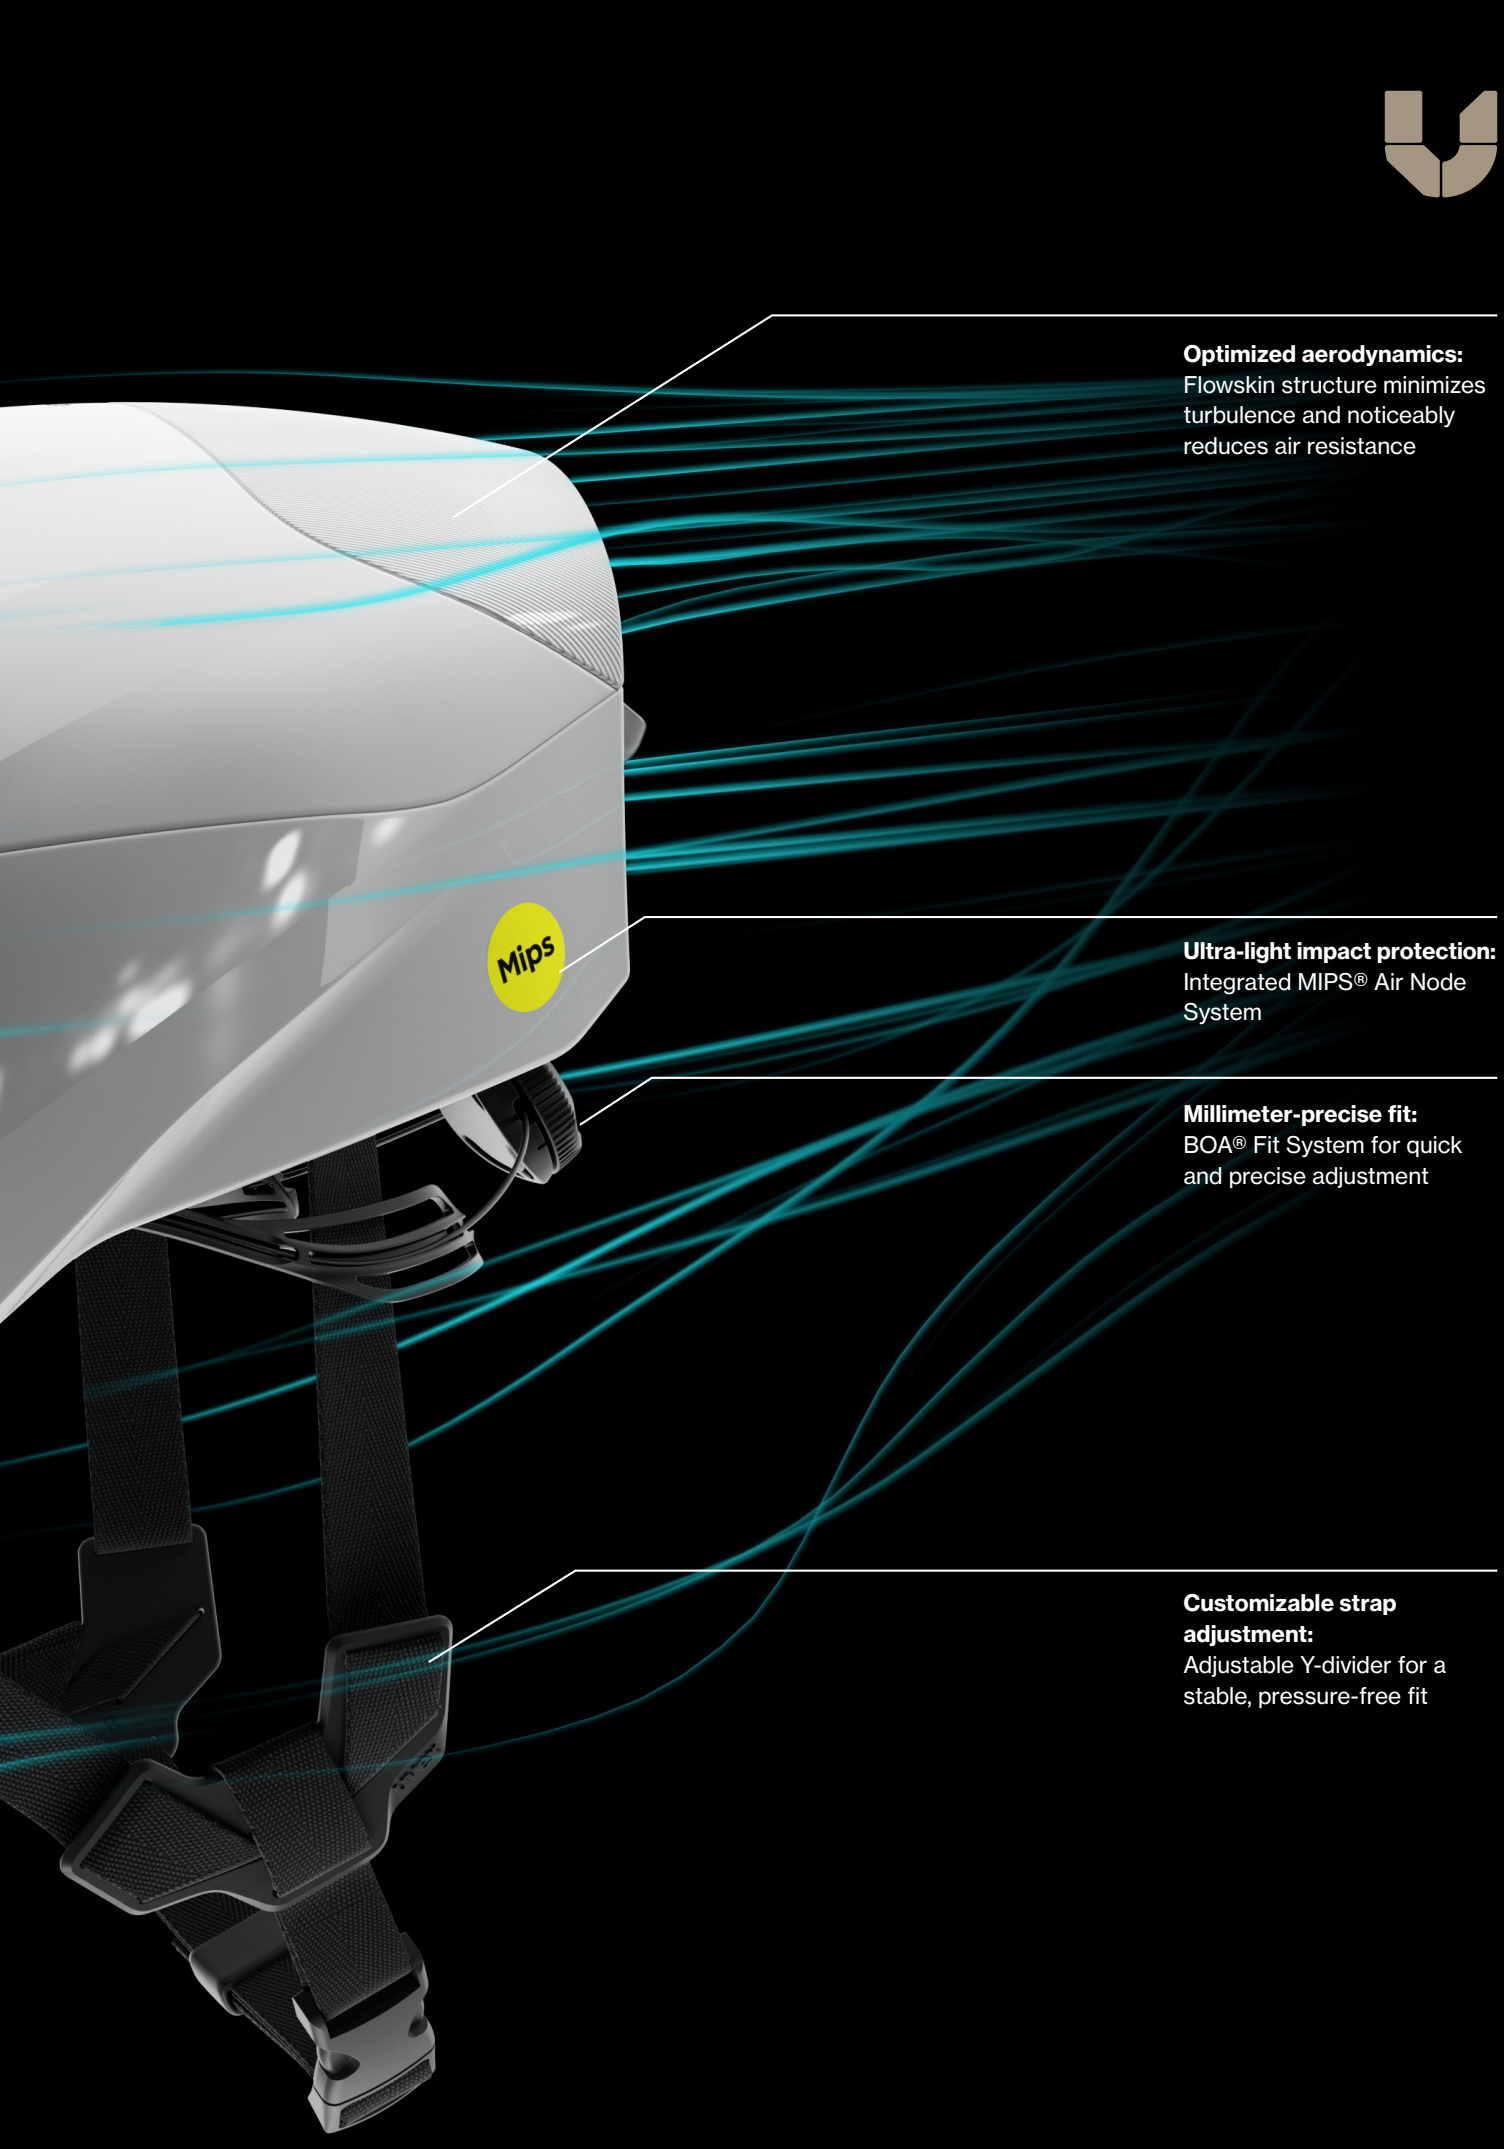

uvex ultimate DNAero MIPS. ultimate aerodynamics. ultimate ventilation. ultimate line.

Streamlined shape:
Aerodynamic design reduces air resistance

Secure goggle storage:
Goggle Storage keeps goggles secure and within reach in the helmet compartment

Effective cooling:
CCubed® wicks away sweat and lowers skin temperature

Optimized aerodynamics:
Flowskin structure minimizes turbulence and noticeably reduces air resistance

Ultra-light impact protection:
Integrated MIPS® Air Node System

Millimeter-precise fit:
BOA® Fit System for quick and precise adjustment

Customizable strap adjustment:
Adjustable Y-divider for a stable, pressure-free fit

uvex ultimate race X
Aerodynamic. Adjustable visor. Maximum control at any speed.
The uvex ultimate race X sets new standards with its aerodynamically efficient shape and innovative visor, allowing lightning-fast adjustments without interrupting the race. Combined with the precise BOA® Fit System and the cooling CCubed® effect, it delivers a perfect fit, lasting freshness, and uncompromising performance.

100 % UVA, UVB, UVC protection

CCubed® cooling effect – a cool head when the competition heats up.

Inside, the exclusive new CCubed® cooling effect padding, developed in collaboration with uvex, provides revolutionary levels of moisture management and breathability that generates a cooling effect – no matter how hot the competition.

Bu how does it work? Instead of polyurethane, we've used a fibre-based PET material that produces a capillary effect. Sweat is instantly wicked away from the skin to the dry part of the padding, where it can evaporate, creating a natural cooling effect. This generates noticeably improved comfort, especially when pushing hard.

Three key benefits:

1. **Temperature regulation:** The evaporation effect lowers the surface temperature of the head – by up to 2 °C according to tests. Protects from overheating, for a fresher more energetic feel, and longer-lasting performance.

2. **Effective moisture management:** No more sweat getting into your eyes or down your glasses. The padding quickly absorbs perspiration – for clear vision on strenuous climbs.

3. **Sustainability:** The padding is made from a recycled mono-material – and is therefore fully recyclable. For a clear head. And a cleaner planet.

Sweat smart. Stay cool.

tech summary

Tested to standards

Anyone riding with uvex bike helmets rides on the safe side. Because every one of our bike helmets undergoes tough tests in the uvex testing center.

Additionally GS-tested

The voluntary test mark "GS" stands for "Geprüfte Sicherheit" ("tested safety"). Find details about test criteria: www.tuv.com

Shell materials

PC
inmould // double inmould // multi-inmould
Safety thanks to the strongly bonded PC shell. Double inmould for extra protection along the lower edge.

ABS
hardshell
Proven technology has a hard shell for highly effective protection.

EPS
hardshell // inmould
The protective material comprises microscopically small air chambers that act as shock absorbers for the impact created by a crash.

Shell constructions

Hardshell
The helmet has a molded outer shell and EPS inner shell for the most efficient safety combination: impact resistant on the outside, shock-absorbing on the inside. This complex construction allows perfectly placed air vents and channels to be built in, for exceptional wearing comfort.

Inmould
The protective EPS is injected directly into the polycarbonate shell. This ensures a lightweight helmet construction with the highest impact resistance and perfect bonding between the EPS inner layer and the PC outer layer.

Double inmould // multi-inmould
The proven inmould construction is fitted with a second or several PC shell(s). It gives extra protection to the outer edge from damage.

Visor types

Light conditions	**low light**	**fairly sunny / sunny**
Filter category	**cat. 0**	**cat. 1–2**
Translucency level	**80–100%**	**18–80%**
mirror / litemirror		pink (cat. 1) silver (cat. 1)
basic	clear (cat. 0)	
variomatic®		blue (cat. 1–2)

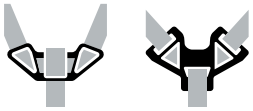

Fit

MIPS
An angled impact generates rotational movements that can cause serious injuries. The MIPS system can reduce the rotational movements and thus reduce the risk of brain damage.

MIPS + height adjustment
The added height adjustment into the MIPS layer provides even more safety and comfort.

MIPS Air Node
Lightest MIPS system that replaces the interior – Less weight, better ventilation MIPS Air Node is designed to reduce rotational forces acting on the head in certain cases of oblique impact.

FAS
Fast Adapting System straps can be easily and continuously tailored to fit your precise head shape.

Monomatic
The uvex monomatic comfort fastener can be opened and closed with just one hand.

Shell sizes
Perfect fit = head size and head shape. The uvex range has the perfect shell size for every head, whether large, small, round or angular, from 45 cm to 65 cm.

Comfort

Vent systems
uvex places the highest value on optimal ventilation. Cleverly designed ventilation openings draw fresh air in and expel warm air.

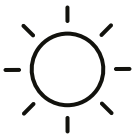

CCubed® cooling effect
Innovative interior that absorbs perspiration during the ride and effectively wicks it away. The moisture is released into the air flowing past: The evaporation effect lowers the temperature on the surface of the skin by up to 2 degrees Celsius.

sunny

cat. 3
